OUR STORY

Boxy Cabinetry was born out of decades of experience and expertise in the kitchen cabinet industry. Our mission is to create exquisite, high quality kitchen cabinets, so you can have peace of mind knowing your kitchen will last for generations.

At Boxy, we constantly evolve and expand our product lines, to adapt with the changing design trends. Boxy offers a wide range of kitchen cabinet designs, including framed and frameless constructions, as well as regular and slim shaker door styles. Our goal is to provide plenty of options, so you can build the kitchen of your dreams.

We believe that quality is as important as appearance, and we are committed to adopting cutting edge technologies, to make our superior cabinets. Every component of our cabinets is carefully milled, finished, and inspected to offer the best quality products.

Wall Dummy Door

Item Code	Dimension
WDD15	11-1/2"W x 14-1/2"H x 3/4"D
WDD30	11-1/2"W x 29-1/2"H x 3/4"D
WDD36	11-1/2"W x 35-1/2"H x 3/4"D
WDD39	11-1/2"W x 38-1/2"H x 3/4"D

Features

3/4" thickness
Matched color and door style

Base Dummy Door

Item Code	Dimension
BDD18	17-1/2"W x 29-1/2"H x 3/4"D
BDD24	23-1/2"W x 29-1/2"H x 3/4"D

Features

3/4" thickness
Matched color and door style

Dummy Drawer Front

Item Code	Dimension
DDF3609	36"W x 9"H x 1-1/2"D
DDF4209	42"W x 9"H x 1-1/2"D
DDF4809	48"W x 9"H x 1-1/2"D

Features

Frame included

Wall Cabinet Shelf

Item Code	Dimension
WCS39	39"W x 9-3/4"H x 3/4"D

Features

3/4" thick plywood
Clear coat finish

Base Cabinet Shelf

Item Code	Dimension
BCS39	39"W x 19"H x 3/4"D

Features

3/4" thick plywood
Clear coat finish

Crown Molding

Item Code	Dimension
CM1-1/2	96"W x 1-1/2"H x 1-1/2"D
CM2	96"W x 2"H x 2"D
CM2-1/2	96"W x 2-1/2"H x 2-1/2"D
CM3	96"W x 3"H x 3"D
CM3-1/2	96"W x 3-1/2"H x 3-1/2"D

Features

Solid wood
Contemporary style

Toe Kick

Item Code	Dimension
TK8	96"W x 4-1/2"H x 1/4"D

Features

One side finished
1/4" thickness

Scribe Molding

Item Code	Dimension
SM8	96"W x 3/4"H x 1/4"D

Features

Solid wood

Sample Door

Item Code	Dimension
SD	12"W x 15"H x 3/4"D

Outside Corner Molding

Item Code	Dimension
OCM8	96"W x 3/4"H x 3/4"D

Features

Solid wood

Touch-Up Pen

Item Code

DTCS24

Features

Full extension
Undermount
3D adjustment
Soft close

BOXY CABINETRY® LIMITED WARRANTY

(Revised Nov 1st, 2022)

Boxy Cabinetry warrants its cabinets to be free of defects in the material or workmanship for five years under normal residential use from the date of the original purchase.

Who does the warranty apply to?

This warranty applies to the initial purchaser of the products who owns them at the original site of installation. FAILURE BY THE CONSUMER TO PROVIDE PROOF OF PURCHASE VOIDS ANY CLAIM MADE UNDER THIS WARRANTY.

What does this limited warranty cover?

This limited warranty covers defects in material and workmanship in your Boxy cabinetry under normal home use and service.

What will Boxy Cabinetry do?

Boxy Cabinetry will replace or repair any part or parts which may prove defective under normal home use and service. As such, some replacement parts are subject to availability, and may differ from those originally supplied.

What is not covered?

- **Hairline Cracking:** Visible cracking around the joint areas of painted face frames, doors and other painted product is considered a natural characteristic of wood. Wood naturally expands and contracts with changes in humidity and temperature and is not covered under any implied warranty.
- **Fading or Aging:** Fading or aging of wood products due to photo-degradation (the effect of natural and artificial light on woods and finishes) of the products' finished appearance.
- **Installation:** This warranty does not cover damage caused by improper job site handling or installation. Improper door and drawer alignment caused by cabinets installed out of level, square or plumb are not covered. This warranty does not cover expenses involved in the removal or installation of any item or product otherwise covered by this warranty.

What will void the warranty?

Products deemed to have been neglected, abused, misused, improperly maintained or FAILURE BY THE CONSUMER TO PROVIDE PROOF OF PURCHASE VOIDS ANY CLAIM MADE UNDER THIS WARRANTY.

- **Humidity & Temperature Damage:** Humidity and temperature causes wood products to shrink, swell, crack or warp. The temperature inside your home should be within a range of 60°- 80° Fahrenheit and indoor relative humidity should have a range of 35% to 50%. Home environments beyond our guide are considered improper maintenance and will void warranty.
- **Water Damage:** Damage caused by exposure to water and/or damp cloths is considered improper care and will void warranty.

- **Neglecting Chips & Scratches:** Neglecting chips and scratches is considered improper maintenance. When chips or scratches are not properly touched up, they are a future point of product failure and will void warranty.
- **Product Modification:** This warranty does not cover damage caused by product modifications such as job site modifications, disassembly or refinishing.
- **Improper Storage:** Product stored in an uncontrolled environment before or during installation is considered improper maintenance and will void warranty.
- **Appliance Damage:** Appliance heat, steam, water or other factors related to appliance use that damage cabinetry are considered improper care and will void warranty.

THIS WARRANTY DOES NOT COVER INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF USE, OR LABOR EXPENSES IN UNINSTALLING OR INSTALLING ANY MATERIAL OR PARTS, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, TORT, OR ANY OTHER LEGAL THEORY, EVEN IF BOXY CABINETRY HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. BOXY CABINETRY DISCLAIMS RESPONSIBILITY OF DAMAGES IN EXCESS OF YOUR PURCHASE PRICE. THIS WARRANTY EXCLUDES ALL INDUSTRIAL, COMMERCIAL AND BUSINESS USAGE.

CARE & MAINTENANCE

BOXY CABINETRY® CARE & MAINTENANCE

(Revised Nov 1st, 2022)

CABINET CARE AND MAINTENANCE

Frequent Care:

- Wipe spills and splatters promptly and dry immediately to avoid staining or damage.
- Do not place damp cloths or dishtowels over cabinet surfaces. Moisture from these can cause damage to cabinet finish.
- Keep cabinet surfaces dry by wiping off excess moisture on cabinets in areas that experience excessive humidity.
- Be cautious of objects hitting cabinet fronts that may cause chips and scratches to cabinet surfaces.
- Monitor the special attention areas listed.

Long-Term Care:

- Maintaining a consistent home environment by regulating temperature and humidity ensures stable and healthy conditions for cabinetry.
- Be sure to do a thorough cabinet exterior cleaning a few times a year. Cleaning small areas at a time is recommended.
- If left uncleaned, oils and contaminants can build up on frequently touched cabinet surfaces, especially around knobs and pulls.

Maintenance:

- Touch-up finishing may be required even with our high-quality finish. Cabinets may get chipped or scratched during installation or from common items like cutlery, jewelry or fingernails. Please contact your dealer for touch-up options and recommendations.
- Adjustments to cabinet hardware may be necessary from normal use. Occasional hinge screw tightening or door/drawer alignment may be required. Please contact your dealer for adjustment options and recommendations.

IMPORTANT: Improper cleaning, care and maintenance may cause permanent damage to cabinetry.

AREAS TO PAY SPECIAL ATTENTION

Sinks: Cabinets around the sink area require extra attention because of the proximity to water. Farm and apron sink cabinets are especially prone to water exposure. Be sure to dry promptly to prevent damage.

Self-Cleaning Ovens: Extreme heat from the self-cleaning feature can result in damage to surrounding cabinetry. To minimize the risk of damage, remove cabinet doors and drawers closest to the oven before using the self-cleaning feature.

Countertop Appliances: Avoid placing small kitchen appliances where heat and steam is directed onto cabinetry. Small appliances such as instant pots, coffee makers and crockpots create heat and steam and can cause permanent damage.

Trash Units: Trash pull-outs are one of the most used cabinets in a kitchen. Periodically wipe down the pull-out and check for chips or scratches on the cabinet finish.

Dishwashers: During the cleaning process, dishwashers generate heat and steam that can be directed onto surrounding cabinetry. Be sure to dry promptly to prevent damage.

Cooktops: Cabinetry can be exposed to heat, humidity and cooking splatter around cooktops. To avoid staining or damage on surrounding cabinetry, promptly wipe clean and dry.

MAINTAINING YOUR HOME ENVIRONMENT

Humidity and Moisture:

- Humidity and moisture are enemies of cabinetry, causing them to shrink, swell, crack or warp if not properly maintained.
- Kitchens and bathrooms should be well-ventilated to exhaust excess heat, humidity and contaminants.
- Indoor relative humidity should have a range of 35% to 50%.

Sun Light:

- Ultraviolet (UV) rays in natural sunlight affect the color appearance of your cabinets.
- Wood and painted finish colors can fade, darken or discolor if exposed to prolonged direct sunlight.
- “Mellowing” is the natural color change in wood caused by exposure to bright light and sunlight.

Temperature:

- The temperature inside your home should be within a range of 60°-80° Fahrenheit.
- Extreme changes to indoor temperature cause materials to swell or shrink, resulting in damage to cabinetry.
- Extreme heat from the self-cleaning oven feature can potentially damage surrounding cabinetry.

IMPORTANT: Exposure to extreme humidity, moisture and temperature will cause permanent damage to cabinetry.
